

**SOUTHWEST MISSISSIPPI REGIONAL MEDICAL CENTER'S POLICY
REGARDING PHOTOGRAPHY, VIDEO, AUDIO, AND ELECTRONICALLY RECORDED DATA**

DEFINITIONS:

For the purposes of this policy, “photography or recording” refers to recording an individual’s likeness (e.g., image or picture) or voice using photography (e.g. cameras or cellular telephones), audio recording (e.g., a tape or digital recorder), video recording (e.g., video cameras or cellular telephones), digital imaging (e.g., digital cameras or web cameras), or other technologies capable of capturing an image or audio data (e.g., Skype). This does not include medical imaging such as MRIs, CTs, laparoscopy equipment, or images of specimens.

PURPOSE:

As a responsible health care provider, Southwest Mississippi Regional Medical Center (SMRMC) must take reasonable steps to protect its patients, visitors, employees and other staff members from unauthorized photography or recording. Due to the sensitive nature of patient information and to protect patient privacy, the policies and guidelines below apply to all photography, imaging, audio, video, or other electronic recording of patients, visitors, employees, or other persons present within a SMRMC facility.

SCOPE:

These policies apply to patients, family members, visitors, other third parties, employees, and other SMRMC staff members.

POLICY:

To facilitate compliance with the Health Insurance Portability and Accountability Act (HIPAA) and regulations and guidelines promulgated thereunder, as well as to ensure that SMRMC is able to effectively provide the highest quality treatment for its patients, the following policies apply to all photography or recording in SMRMC facilities. These policies apply to patients, family members, visitors, other third parties, employees, and other SMRMC staff members as set forth below:

I. Policy Regarding Photography or Recording by Patients, Family Members, Visitors, and other Third Parties

The following guidelines apply to all photography or recording by patients, family members, visitors, and other third parties. The photography and recording policy applicable to patients, family members, visitors, and other third parties should be prominently posted on signs throughout the hospital.

1. Patients, family members, and/or the patient’s visitors are generally permitted to take photographs or recordings of one another, related to the patient who is being visited, unless otherwise instructed by SMRMC staff.

2. Patients, family members, visitors, and other third parties are prohibited from photographing or recording SMRMC personnel, equipment, or facilities.
3. The Patient, the patient's family members, and the patient's visitors are prohibited from photographing or recording other SMRMC patients without obtaining SMRMC's consent.
4. Medical equipment or set-up should not be moved to accommodate photography or recording.
5. All equipment used for photography or recording should be battery powered.
6. Patients, family members, visitors, and other third parties are prohibited from taking photographs or recordings for insurance and/or legal purposes without SMRMC's consent.
7. SMRMC reserves the right to prohibit any photography or recording for any reason or for no reason.

II. Procedure for Inappropriate Photography or Recording by Patients, Family Members, Visitors, and Other Third Parties

1. If a patient, family member, visitor, or other third party is engaging in photography or recording in violation of the above guidelines, the patient, family member, visitor, or other third party should be given a copy of the above policy and politely asked to cease the inappropriate photography or recording.
2. If a family member, visitor, or third party refuses to cease the inappropriate photography or recording, the family member, visitor, or third party should be politely asked to leave the premises.
3. If the family member, visitor, or third party refuses to leave the premises, SMRMC's Security should be notified.
4. If the family member, visitor, or third party refuses to leave after being asked by SMRMC's Security, law enforcement should be called to remove the family member, visitor, or third party from the hospital.
5. SMRMC personnel should never discontinue or deny treatment of the patient due to violation of the photography or recording policy.

III. Policy Regarding Photography and Recording by SMRMC Personnel for Non-Clinical Purposes

1. SMRMC employees, staff members, or other personnel affiliated with SMRMC are prohibited from taking any photographs or recordings for non-clinical purposes.

IV. Policy Regarding Photography or Recording for Clinical Purposes

1. When taking photographs or recordings of patients for clinical purposes, patients should be so advised. Any such photographs or recordings should also be made a part of the patient's medical record.
2. Identification showing the patient's/resident's name, date, medical record number, and/or photographer's name should be affixed to the back of each photograph.

3. Any such photograph, video, or recording should be released and/or used only as authorized or required by law.
4. Any such photograph, video, or recording should be made only with hospital-owned equipment.
5. Any photograph, video, or recording of a patient made for clinical purposes should be deleted from the hospital's equipment once they have been placed in the patient's medical record.

V. Policy Regarding Photography or Recording for Education and Training Purposes

When taking photographs or recordings for education and training purposes, the following guidelines should be followed:

1. Before taking any photographs or recordings for education or training purposes, written consent shall be obtained from the patient (or authorized legal representative) using the following forms:
 - a. The "Consent and Release to Use Photography or Recordings" Form.
 - b. The "HIPAA Authorization to Release Health Information for Educational, Training, Marketing, or Promotional Activities" Form.
2. A health care provider, or appropriately delegated person, is responsible to explain to the patient (or authorized legal representative) why a consent document and/or HIPAA Authorization is required by describing:
 - a. The purpose of taking the photography or recording; and
 - b. The proposed (use(s) of the photography or recording (e.g., education or training purposes).
3. The photograph, video, and/or recording should not include the patient's family or visitors.
4. The photograph, video, and/or recording should be retained by the physician or administrator who requested the photograph or recording for such purposes. The patient's record should note that photographs and recordings were taken for such purposes.
5. A patient may revoke consent as set forth in the forms. No further use or disclosure shall be made of the photography or recordings after a written revocation is received from the patient or authorized legal representative.
6. Any such photograph, video, or recording should only be made with hospital-owned equipment.

VI. Policy Regarding Photography or Recording for Marketing or Promotional Purposes

When taking photographs or recordings for marketing or promotional purposes, the following guidelines should be followed.

1. Before taking any photographs or recordings for marketing or promotional purpose, written consent shall be obtained from the patient (or authorized legal representative) using the following forms:
 - a. The “Consent and Release to Use Photography or Recordings” form.
 - b. The “HIPAA Authorization to Release Health Information for Educational, Training, Marketing, or Promotional Activities” form.
2. A health care provider, or appropriately delegated person, is responsible to explain to the patient (or authorized legal representative) why a consent document and/or HIPAA Authorization is required by describing:
 - a. The purpose of taking the photography or recording; and
 - b. The proposed use(s) of the photography or recording (e.g., marketing or promotional purposes).
3. A patient may revoke consent as set forth in the forms. No further use or disclosure shall be made of the photography or recordings after a written revocation is received from the patient or authorized legal representative.
4. Any such photograph, video, or recording should only be made with hospital-owned equipment.

VII. *Policy Regarding Transmission of Protected Health Information over Speakerphone or Other Methods which May be Heard or Observed by third Parties*

1. Unless required due to an emergency, Patient protected health information or treatment related information should never be disclosed or relayed via speakerphone or other methods which may be heard or observed by third parties (e.g. Skype, Facetime) in publically accessible or common areas of the Hospital.
